

CAVIBRICK

High Performance Air Brick

- High air throughput
- Insect screening
- Self-draining base
- Clip together to make up composite sizes
- Range of colours

Solution

Manufactured to brick dimensions, the Cavibrick promotes a high air throughput, via a front louvred grille. The louvres are proportioned to maximise performance whilst contouring the air to challenge through-draughts.

The louvres are also spaced to comply with the latest BS requirements but have been staggered to offer also an insect resistant screen which is not offered on some standard airbricks.

The Cavibrick incorporates a water dam back to prevent rain penetration and crossflow separators. Moulded in a range of colours, the cavibrick may be used singularly, or in multiples. The Cavibrick is fully compatible with our range of telescopic and straight sleeves.

Product name	Cavibrick
Size	220 x 60 x 70mm
Free airflow rating	7500mm ²
Colours	Terracotta, Slate, Beige, Brown, White or Black
Material	Polypropylene
Observations	Sleeves - all styles

Colours

1	Cavibrick
2	Type TAV top section
